COPY FOR MR. J. ALLAN ROSS

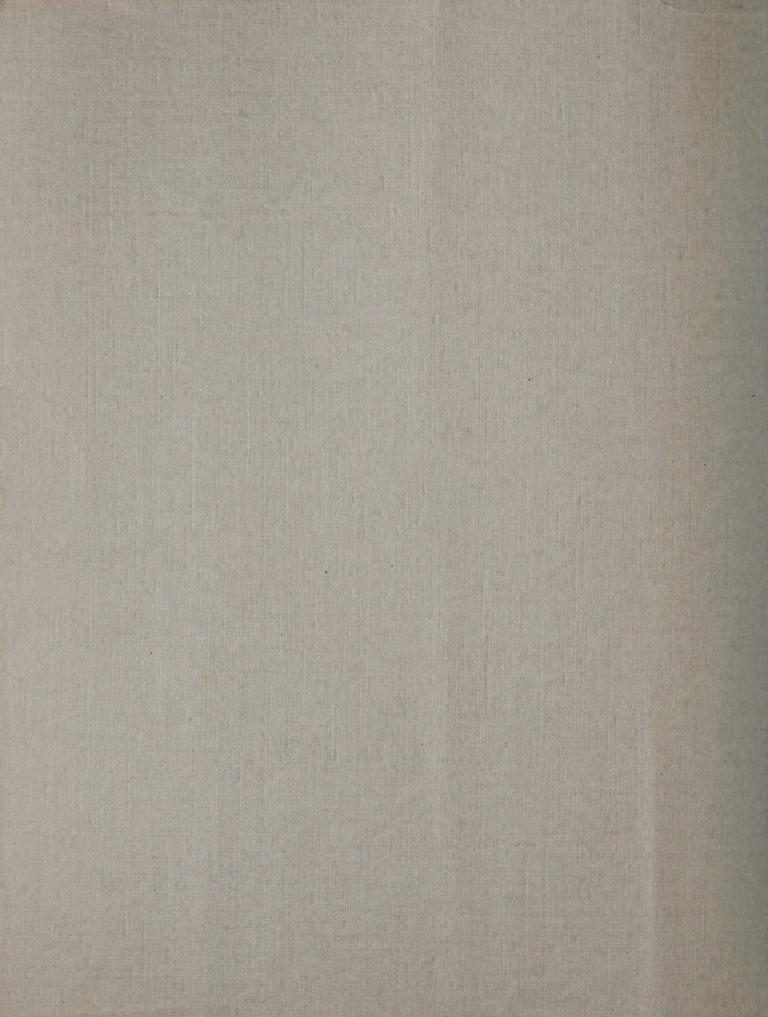

HYDRO-ELECTRIC INQUIRY COMMISSION

REPORT ON

PROCEEDINGS AND EXPENDITURES

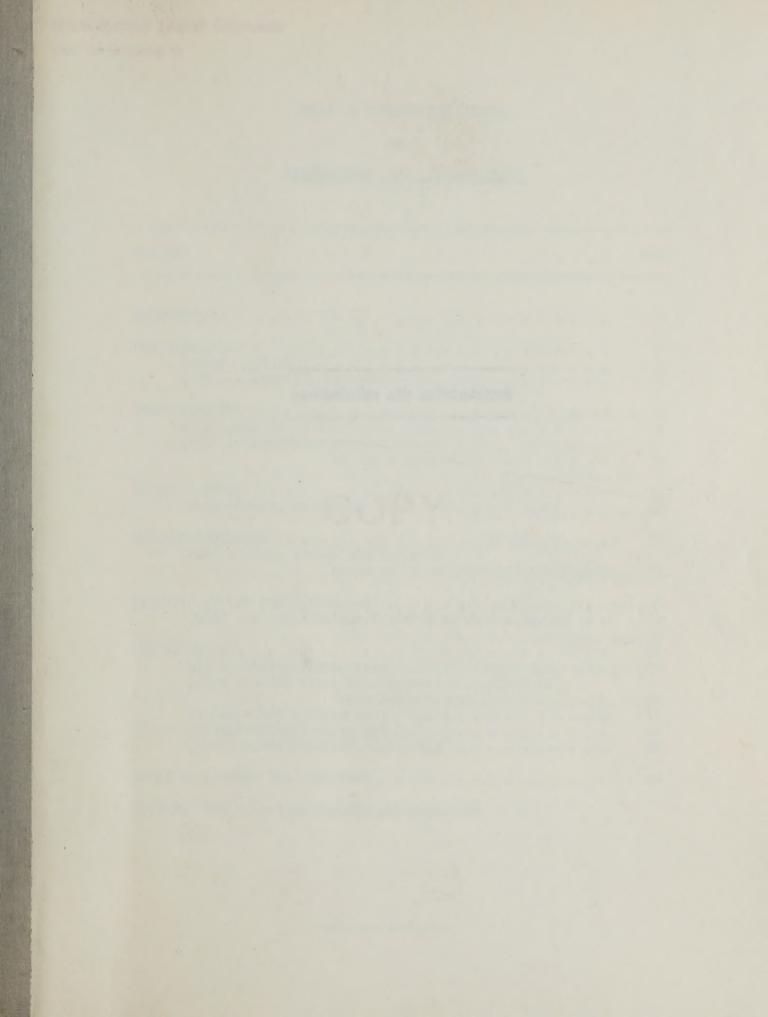

APRIL 13, 1922, TO MARCH 31, 1924.

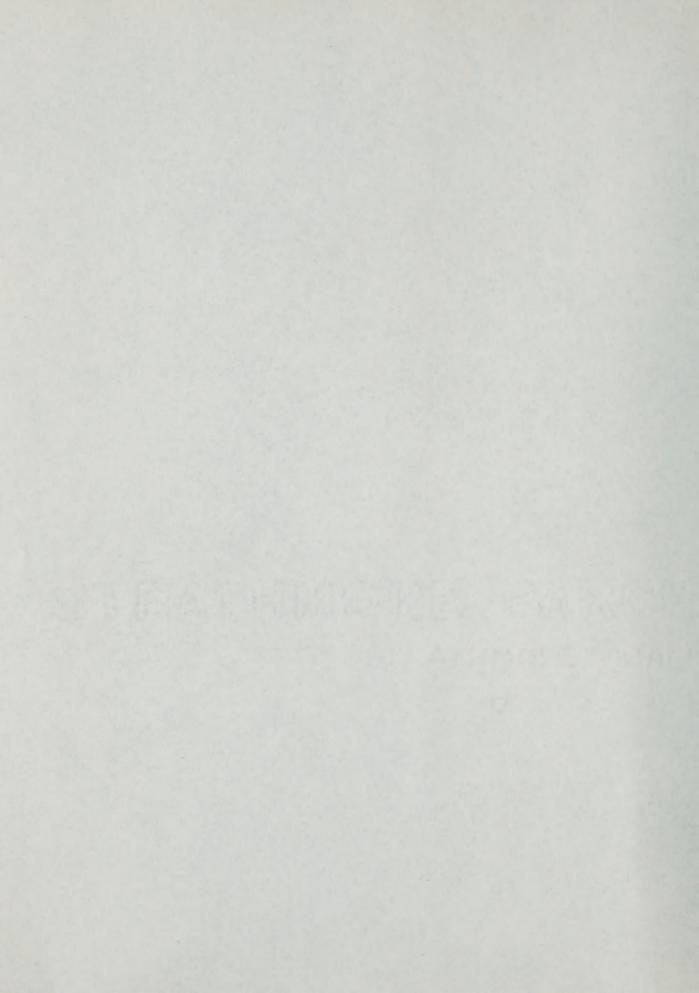

JOSEPH H. W. BOWER SECRETARY

COMMISSIONERS W. D. GREGORY, CHAIRMAN LLOYD HARRIS J. A. ROSS R.A.ROSS Hydro Electric Inquiry Commission J. H. W. BOWER, 36 KING ST. EAST TORONTO April 2nd, 1924. J. Allan Ross, Esq., Wm. Wrigley Jr. Co., Limited, Carlaw Avenue, Toronto. Dear Mr. Ross: I am enclosing herewith copy of report entitled "Proceedings and Expenditures" which is in effect a summary of general information regarding the activities of the Commission. The document includes, as Appendix "A", a complete index of all official reports submitted to the Government, and the information in connection therewith has been compiled in the nature of a spread sheet which shows the disposition of every document. Your files have been arranged in the same manner as that indicated in the index spread sheets, and, if they are maintained in this condition, it is thought that no difficulty will ever be encountered when it is necessary for you to locate any of the reports. In certain cases where only two copies of a report have been available, one of these has been submitted to the Government and the other has been retained in the Secretary's files for the general use of the Commissioners. To the Government I have also submitted a report entitled "General Index to Documents", and while this document is compiled along similar lines to the index included in the report entitled , "Proceedings and Expenditures", no information has been given nor any reference made to the documents which have been retained by the Commissioners or the Secretary. I have also submitted to the Government a report entitled "Expenditures" which includes only the information given on pages 18, 19, 20, 21, 22 and 23 of the report entitled Proceedings and Expenditures". Yours very truly, J. H. W. Bower, A. J. S. JHWB/G

COPY FOR ENCLOSURE TO

INTRODUCTION

This decument is in effect a compilation of certain information relative to the general procedure of the work. The document is not of a discussional character, but includes transcriptions of certain memoranda approved of by the formission, charts representing graphically the progress of the work, and other matters, together with a complete statement of expenditures from the appointment of the Commission in April 1922, to the completion of the work in March 1924. There is also included complete information relative to the documents submitted to the Government and those retained by each Commissioner. With it are transmitted transcriptions of the Minutes of all meetings of the Commission.

Copy of an Order-in-Council, approved by His Honour the Lieutenant-Governor, dated the 12th day of September, A.D., 1925

Upon the recommendation of the Honourable the President of the Council, the Committee of Council advise that the Order-in-Council dated April 15th, 1922, appointing the Hydro-Electric Inquiry Commission, be amended by omitting the following paragraph:

"To make such suggestions and recommendations in connection with or arising out of the subjects thus indicated, us may be desirable, and to report the Evidence and Facts brought out by the investigation, along with such findings."

And that the following be substituted therefor:

"To report the evidence and facts brought out by the investigation."

The Committee further advise that the Commission be smended accordingly.

As assured by the Chart IV will be ented a

Having regard to the mature of the inquiries to be made, the appointment of a Consulting Engineer, an Auditor and a Legal Adviser was early decided upon. It was also decided that a Secretary should be appointed to link after the records of the Commission, supervise the preparation of its reports, and generally to co-ordinate the work of the three aforementioned experts. On the next two pages following will be found, first, a memorandum approved of by the Commission, and second, a chart representing in graphical form, the general nature of the organisation which coarried out the work.

HYDRO-ELECTRIC INQUIRY COMMISSION

21st June, 1922.

The Organization Chart herewith attached is submitted as representing in a graphical way the procedure to be followed in order that the various branches of the work may be co-ordinated and the general office work administered. The Chart is prepared as representing the directions given by the Commissioners in their executive session, June 20th, 1922.

In observing the Chart it will be noted:

- (A) That in general the Commission will act as one body looking to and holding the Secretary responsible for:
 - (1) All matters of General Administration.
 - (2) Consultation and co-operation with the various expert branches employed by the Commission and from them to ottain a Dave submitted all information and date necessary to complete the various questions arising out of the Commission's investigations or matters contingent thereto.
- (B) That the Chart provides for the necessary direct personal communication between the Commissioners and the various expert branches employed but it is intended that in accordance with section A, para.2, of this memoranda that all such information or data arising out of such communications in so far as it affects the work entertained in the official investigation, will be available in order that the intention of section A, para.2, may be readily fulfilled.

Respectfully submitted.

(Signed) J. H. W. BOWER.

REPORT SYSTEM

sufficiently to permit of the making of definite plans regarding the preparation of reports. It was decided that the reports of the expert branches should be carefully examined by the Secretary and his assistants, and that a report be prepared for the information of the Commission Setting forth in a concise manner the business, engineering and legal aspects of the various subjects to be reported upon. The plan contemplated that the reports so made would be used as a basis for writing the official reports of the Commission. On pages 12 and 15 will be found the memorandum submitted to, and approved of by, the Commission, which formed the plan followed in making reports throughout the work.

HEMORANDA RE SYSTEM REPORTS

a below series of the emphasiling engineering features of

The following is intended as a brief outline of the general scheme of System Reports which will be made to the Commission by the Secretary's Department after full information has been obtained from all sources. The information to be obtained on the systems will comprise reports of the hearings, special legal reports, auditors' reports, engineers' reports and such other data and information as may, from time to time appear to be necessary.

It is the intention that the system report shall present to the Commission a composite picture of all matters relative to the particulat system or undertaking being reviewed. A brief outline of the ground to be covered and the order in which the subjects will be dealt with is as follows:

18.30 · 有四水水、冷冰器 5.5 分配 · 克萨尔 8.5

- 1 .- Official letter of presentation.
- 2.- Chronological Chart -

5 .- Physical -

A brief review of the outstanding engineering features or constructional undertakings carried out directly for or in connection with the system.

6 .- Estimates and Costs -

- (a) A comparative review of estimates and actual costs in respect of generator stations, transformer stations, transmission lines and other works.
- (b) A comparative review of estimates and actual costs of power supplied to municipalities.

7 .- General Relations -

A general discussion of the relations as between the H.E.P.C. and the municipalities, together with such other comment and discussion, re general matters, as appear to be important to the system or undertaking under review.

8 .- Legal Issues -

In this section brief reference will be made to the outstanding features which require especial consideration along legal lines.

9 .- Conclusions -

This section will deal with all contentions points that have been brought to attention from the general review embodied in all of the previous sections and, where it is possible to give definite epinions these will be stated and such other points as require further consideration will be given the necessary prominence.

10. - Summary -

From time to time, as systems are reported upon and definite points arise, a list will be made of outstanding headings that bear definitely upon the findings or conclusions arising out of the study of the systems, so that, when all have been reported upon, a comparison of the main points at issue in each may be readily made and, when the general report is in preparation, these points or outstanding features may be conveniently available for use and reference. This section entitled "Summary" is intended to give in the briefest possible manner a summarization of the important issues in each system.

EXPENDITURES

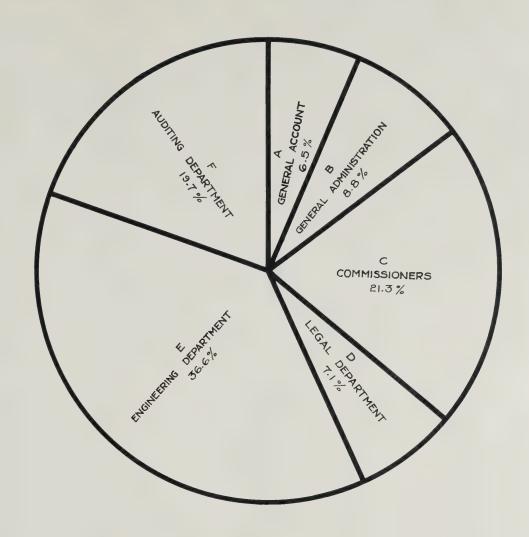

Shortly after the appointment of the Commission, an amount of \$5,000 was deposited to the personal credit of the Chairman against which cheques might be issued signed by the Secretary and the Chairman. This account was only utilized for the payment of standard items such as rent, petty cash account and so forth, the majority of the expenditures made by the Commission being met month by month by the Provincial Treasurer after the accounts were approved of by the Provincial Auditor, and recommended for payment by the Premier.

on page 19 hereof, will be found a chart showing the distribution of total expenditures for the period of inquiry, and on page 20, another chart showing the progressive costs menth by menth classified according to the various accounts. On the next succeeding two pages will be found typical financial statements that were rendered to the Commission menth by menth. The first of these, namely, that on page 21, shows the total of each menth's expenditures throughout the period of the Inquiry. On page 22, will be found a typical statement of menthly expenditures subdivided into the various classifications. Similar statements were available throughout the Inquiry for each menthly period, but are not included herewith as they would make the document too voluminous. The Accountants of the Commission, Mesers. Price, Waterhouse & Co. sudited the books from time to time, and copy of their last statement under date of February 22nd, 1924, is included herewith as page 23.

INDEX TO REPORTS AND DOCUMENTS

Forming Appendix "1" of this document will be found a complete index of all official reports, documents and files of the Inquiry Commission which have been embmitted to the Government. On pages I to 21 will be found spread aheets showing the title of each document, its official index number, number of copies presented to the Government and the number of copies included in the files of each Commissioner and the Secretary. For purposes of ready reference, the reports have been indexed in the following manner:

A - REPORTS OF PRICE, WATERHOUSE & CO.

Appendix "A", page Dto 7, inclusive Index numbers black 1 to 94, inclusive

3 - REPORTS OF WALTER J. FRANCIS & COMPANY

Appendix "A", pages 8 to 10, inclusive Index numbers (black) 101 to 143, inclusive

C - MISCHLIANEOUS DOCUMENTS

Appendix "A", pages 11 to 18, inclusive Index numbers (black) 201 to 552, inclusive

D - IN LUMBION

Appendix "A", page 19
Index numbers (black) 401 to 439, inclusive

E - OFFICIAL REPORTS OF EYDRO-SLECTRIC INJUIRY COMMISSION SUBMITTED TO THE GOVERNMENT

Appendix "A", page 20
Index numbers (red) 1 to 24, inclusive

y - SECRETARY'S REPORTS TO HYDRO-RLECTRIC INJURY COMPLISHOR

Appendix "A", page 21 Index numbers (red) 2 to 25, inclusive

AND OWNERS OF THE PARTY AND PARTY.

O - OFFICIAL LETTER FILES OF THE HYDRO-FLECTRIC DESPIEY CONVISCION

(No copies for Commissioners.)

Appendix "A", pages 22 to 24, inclusive Index numbers 101 to 120, 201 to 222 and 301 to 306

H - BOOKS OF ACCOUNT, ARCH FILES, HENSPAPER CLIPPING BOOKS AND SO FORTH

(No copies for Commissioners.)

Appendix "A", page 25 Fo index numbers

It will be noted that appendix "A" includes a complete list of the official reports of the Commission, reports of its Consmitting Engineer, reports, documents and statements prepared by Price, Waterhouse & Co., financial statements presented to the Commission V Cardon, Jordon & Dilworth, swidence taken at the public hearings, stemographic records of interviews with various persons appearing before the Commission, copies of certain legal briefs and other miscellaneous documents and printed matter which formed the official files of the Commission. As above noted the information has been compiled in the form of spread sheets which show the disposition of every document. By referring to the name, each Commissioner may ascertain the documents in his own possession and those in the hands of other Commissioners, the Secretary and the Covernment. As will be noted each set of documents have been numbered consecutively and arranged in the same number in the filing cases. When desiring to refer to any document it is only necessary to ascertain its index number from the apread sheet and locate the document bearing the same number in the file.
